

# LVDS Solution Fiber

KVM can be so *simple*  
**Let's connect!**  
kvm-tec

## HMI Lösung over IP based on MVX Fiber

The LVDS Solution - is the slim HMI solution with many applications for MVX-1 FIBER KVM Extender. The LVDS solution replaces the controller board of a monitor and makes the device very compact. The Extender controls the TFT panel via the LVDS interface. With the LVDS Solution the remote part of the MVX1-FIBER Masterline Extender is delivered with a 30pin interface for a display and the corresponding 5pin connector for the backlight.

The LVDS Solution replaces the controller board of a monitor and makes the device very compact. A Version with an unassembled USB socket is available on request. This reduces the maximum height to 10mm/039 inch.

USB 2.0 transparent - in house development

## kvm-tec upgrades

*Pre-installed and unlockable*

- USB memory
- Matrix Switching System up to 48 endpoints

[www.kvm-tec.com](http://www.kvm-tec.com)

**DVI-D USB 2.0**

**Resolution 1920x1200@60 Hz**

**Max. distance 160 km/99 mi in Fiber**

**SFP module Multimode up to 500m/1640 ft.**

**alternativ with single mode up to 20km/12 mi**

**Full HD videos in real time**

**Can be used in the Matrix Switching System up to  
48 endpoints**

**.... smart connections**

**The LVDS Solution replaces the controller board  
of a monitor and makes the device very compact.**

**Panel supply voltage: 3.3V, 5V and 12V**

**Brightness adjustment via On Screen Display**

**Depending on the resolution, a correspond-  
ing DDC EDID information is transmitted  
to the computer.**

## Technical Specifications

- The LVDS Solution replaces the controller board of a monitor and makes the device very compact.
- Panel supply voltage: 3.3V, 5V and 12V
- Max. Resolution 1920x1200@60Hz
- Brightness adjustment via On Screen Display
- Depending on the resolution, a corresponding DDC EDID information is transmitted to the computer.
- A version with an unassembled USB socket is available on request. This reduces the maximum height to 10mm/039 inch.
- The LVDS solution is not preloaded as standard and must be ordered with the order.
- the LVDS solution can be used in the Matrix Switching System up to 48 endpoints.
